

N. PAVITHRA

EMERGING DATA ANALYST

Salem, Tamil Nadu | +91 9566084669 | rnpavithra@gmail.com | linkedin.com/in/rnpavithra | github.com/rnpavithra

Education

RMD Engineering College

Chennai, Tamil Nadu.

Bachelor of Engineering (B.E.) in Computer Science

2009-2013

Technical Skills

Programming & Databases: SSIS, SQL, Python, MySQL, Power BI

Business Tools & Platforms: CRM Platforms, Revenue Optimization Tools, Git

Experience

Tata Consultancy Services (TCS)

2013 – 2018

System Engineer

Chennai, Tamil Nadu

- Orchestrated automated, high-volume data refresh workflows and bulk data migration pipelines using MSBI tools.
- Engineered a self-service automation portal that optimized internal processes, delivering an effective operational cost savings of up to \$1M USD.
- Collaborated closely with cross-functional teams to translate technical data pipelines into clear, actionable business intelligence.

CBSE School

2024 – Present

Teacher (Non-IT Experience)

Salem, Tamil Nadu

- **Transferable Skills:** Utilized data-driven methodologies to track student performance metrics, manage progress reports, and streamline curriculum scheduling.
- **Communication & Leadership:** Chaired parent-teacher progress evaluations and managed classroom dynamics, translating performance statistics into actionable growth plans.

Projects

Retail Sales Data Analytics & EDA — Entri Elevate Ongoing / Present

- **Data Preprocessing & Analysis:** Conducted exploratory data analysis (EDA), data cleaning, and missing value handling on retail datasets using Python (Pandas, NumPy).
- **Visualization & DAX :** Designed interactive Power BI dashboards and created DAX functions to analyze sales trends, customer purchasing behavior, and revenue metrics.
- **Business Impact:** Derived actionable insights to optimize sales strategy, inventory management, and store performance tracking.

RMO (Revenue Management Optimization) — Client: Nielsen

- **Data Engineering:** Managed bulk data loads by creating and maintaining tenants and separate databases for individual retailers.
- **ETL & Integration:** Developed and enhanced complex SSIS packages for smooth data onboarding workflows and systematically resolved file errors during loading.
- **Database Optimization:** Analyzed and resolved critical platform bugs within RMO tools by creating and optimizing advanced SQL stored procedures.
- **Business Intelligence:** Utilized SSRS to design, develop, and deliver comprehensive data reports for corporate retailers to drive strategic planning.

Awards & Certifications

On the Spot Award (Automation) – TCS

March 2015

- Recognized for creating a self-service portal that delivered an effective cost savings of up to \$1M USD.

On the Spot Award (Data Refresh) – TCS

October 2015

- Awarded for technical contributions in automating high-volume data refresh workflows.

Service & Commitment Award – TCS

January 2017

- Honored for sustained operational excellence and technical delivery.
